

Ideation Phase

Empathize & Discover

Date	18 June 2026
Name	Dhanish Ladwani
Project Name	ShopEZ-E-Commerce-Application
Maximum Marks	4 Marks

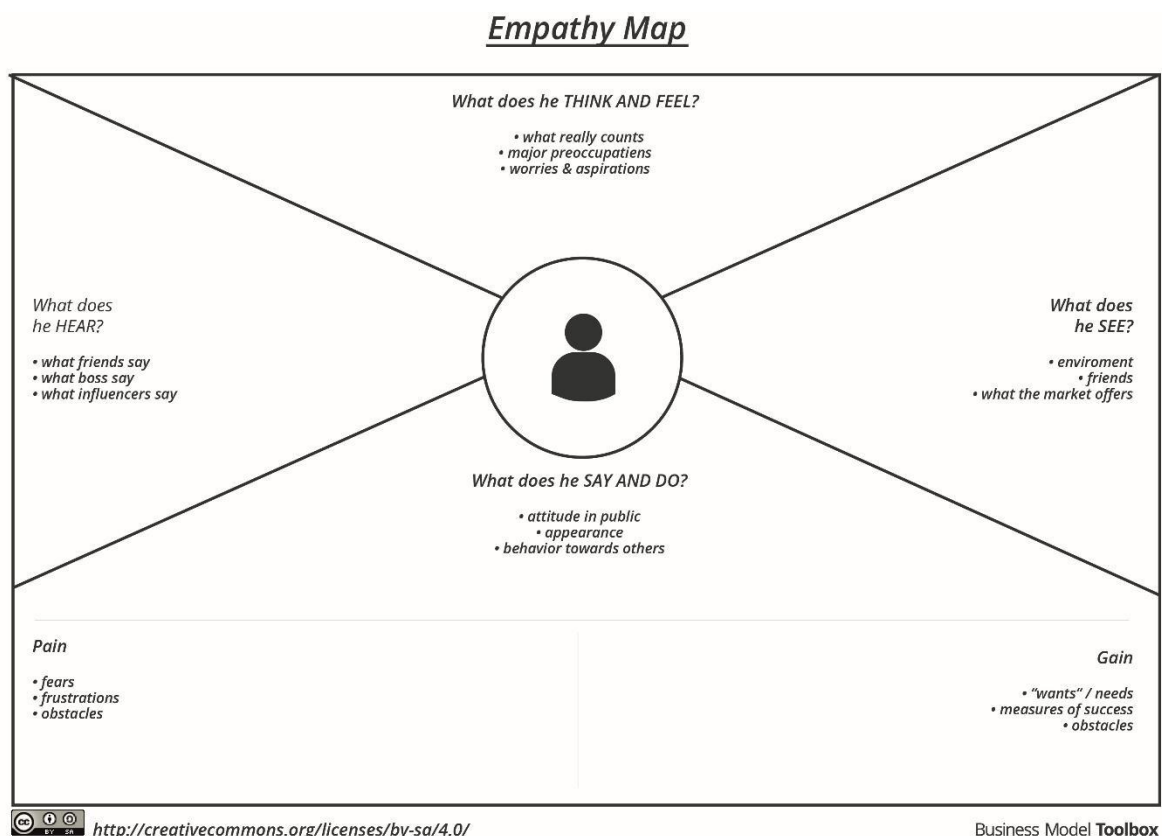

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

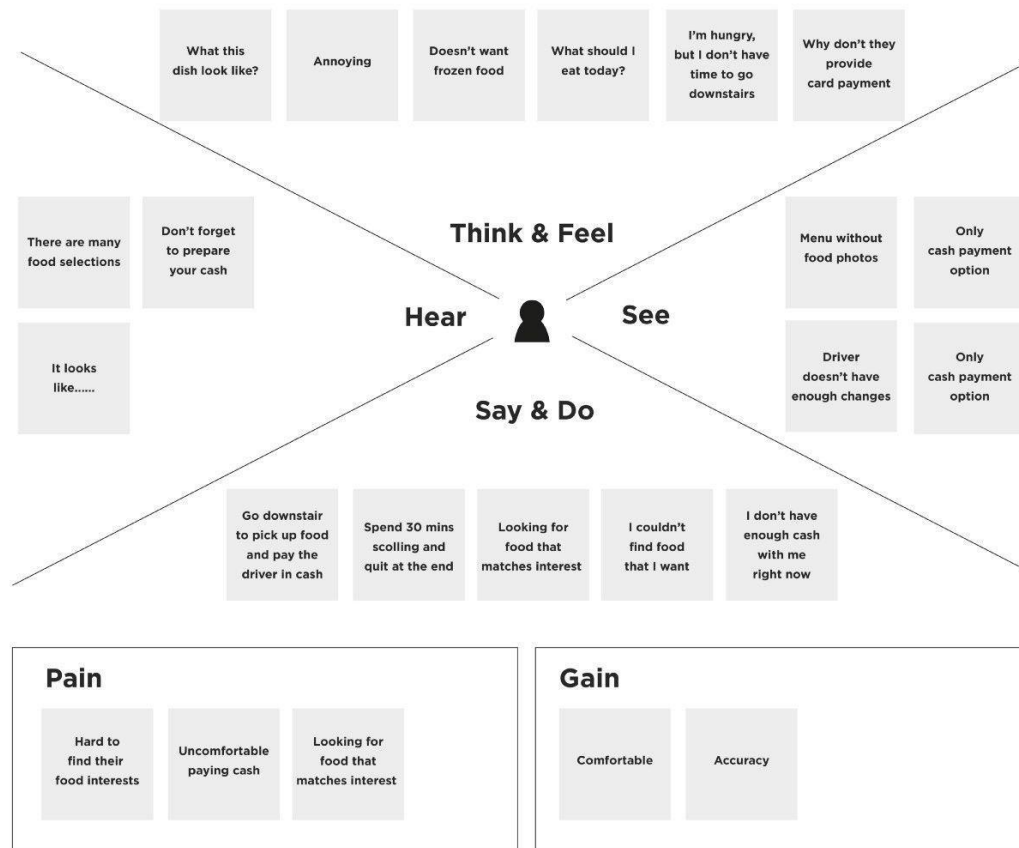

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Example: Food Ordering & Delivery Application

Our Empathy Map: ShopEZ E-Commerce Application

Persona: Priya, a mobile-first online shopper who browses ShopEZ for clothing, footwear, and accessories between work and other commitments. The map below captures her thoughts, environment, words/actions, pains, and gains while using the platform, used to ground the product and admin-panel decisions made for ShopEZ.

Empathy Map - ShopEZ Customer ("Priya, the Mobile Shopper")

Pain

No size guide, so orders sometimes don't fit

Worried about entering card details online

Hard to tell which reviews are genuine

Gain

A fast, transparent checkout with order tracking

Confidence from visible ratings & review counts

Wishlist to save items for next payday
